

Product specification

Texapon® K 30 UP

PRD 30538628

Valid since	23.07.2013
Revision	1.0
WF-No.	2196
Page	1 of 2

® = registered trademark of BASF

™ = Trademark of BASF

Care Chemicals**INCI name:**

Sodium Coco-Sulfate (EU + CTFA)

Physical form:

Texapon® K 30 UP is a slightly yellowish, liquid to pasty substance.

Provisional quality control data

(Data which is used for quality release and is certified for each batch.)

Test propertyAnionic surfactant (MW 309)
pH value (10 %)**Specification**28 - 30 %
10.5 - 11.5**Test method**DIN ISO 2271
DGF H-III 1**Provisional additional product descriptive data**

(Data which is proven statistically but not determined regularly.)

Test propertySodium sulfate
Sodium chloride
Unulfated matter**Specification**<= 2.0 %
<= 1.0 %
<= 1.4 %**Test method**DGF H-III 8A
DGF H-III 9
Internal method QC 1114.2

Care Chemicals**Storage information****Shelf life**

18 months

Storage temperature

Store at room temperature.

Storage conditions

In original sealed containers and protected from moisture.

Additional information

Preliminary information: Storage in tank is recommended at temperatures between min. 25 °C and max. 40 °C, ideally at 30 °C. At temperatures below 25 °C crystallisation occurs, which is reversible by heating and stirring. Local overheatings, e.g. caused by electrical heating, steam or any other heating devices at contact temperatures of > 80 °C lead to decomposition of the product. Dependent on storage period a pH drop is possible. Corresponding pH controls are recommended after 3 months.

The aforementioned data shall constitute the agreed contractual quality of the product at the time of passing of the risk. The data are controlled at regular intervals as part of our quality assurance program.
